▶ Ultimate PremiumPlus™ Hi-Tech Specialty Wrap Film

With X-Scape Technology
Series 2300X - Carbon Fiber and Brushed Metal

featuring **SOTT**

Ultimate PremiumPlus™ Hi-Tech Specialty Wrap Film is a high performance special effect cast film with a tinted repositionable pressure-sensitive adhesive. The X-Scape system allows installers to achieve speedy installation while maintaining a high enough tack to ensure a long-term bond. The film is designed to be easily applied without transfer tape and still be ultra conformable to handle a full vehicle wrap with moderate curves. The special carbon fiber and brushed metal effects are great for decorating accent work on vehicles or more comprehensive wraps. Hi-Tech Specialty Wrap Film is rated for outdoor durability up to 5 years.

APPLICATIONS & FEATURES

- Available in Carbon Fiber and Brushed Metal.
- Conforms well to vehicle wraps with moderate curves.
- Ease of handling and installation.

DURABILITY

Actual weathering durability depends on surface preparation, surface maintenance and exposure conditions. Successful weather resistance is characterized by the retention of legibility. Hi-Tech Specialty Wrap Film will resist weathering best when applied to vertical or upper outboard angles. Horizontal angles, such as hood and auto roof surfaces, will deteriorate more quickly than vertical. This is due to increased exposure to sun and moisture, as well as high deposition of dirt and atmospheric contaminants. Actual horizontal weathering will be dependent on maintenance, location and elemental exposure.
